Calisthenics combo with rings

Although I'm not a gymnast, I do bodyweight exercises and calisthenics training on the rings which has always been a lot of fun for me!

What do you think of this archer pull up type exercise? I think it's a great progression to spice up your pulling game even further.

SWING

With the kettlebell swings, here are a few simple tips so that you gain the most out of this move:

- Feet shoulder width or slightly wider and toes slightly facing outwards
- Hinge are hips whilst keeping back flat and chest open
- Your upper body ie. arms should not be assisting the lift
- Drive through and squeeze glutes.
